COURSE OVERVIEW

Organizations face increasingly complex enterprise risk management training challenges that can affect people, assets, operations, reputation, compliance, and business continuity.

This in-house program develops practical enterprise risk management training capability through structured frameworks, applied tools, case studies, assessment methods, and continuous improvement practices.

Business Challenges Addressed

- > Increasing operational risks and uncertainty
- > Weak governance and control frameworks
- > Limited risk visibility and awareness
- > Inconsistent policies and procedures
- > Insufficient planning and preparedness
- > Compliance and regulatory pressures
- > Poor coordination and accountability
- > Limited monitoring and reporting
- > Recurring incidents and operational losses
- > Difficulty sustaining improvement

Key Learning Outcomes

- > Understand enterprise risk management training principles and frameworks
- > Identify risks, vulnerabilities, and operational exposures
- > Apply structured assessment methodologies
- > Develop effective controls and mitigation strategies
- > Strengthen governance and accountability
- > Improve preparedness and response capability
- > Enhance monitoring and reporting practices
- > Support compliance and business objectives
- > Improve organizational resilience
- > Create sustainable improvement initiatives
